CARTE POSTALE. POSTKARTE.

By Appointment.

The Town Hall is an imposing edifice in the German Renaissance style erected in 1886/97 from designs by nine different architects. The buildings are surmounted by a lofty tower 370 feet high, the exterior of the edifice being richly adorned with statues and sculptures. The government of Hamburg is in the hands of a Senate of eighteen members (elected for life) and the City Council of 160 members (elected for six years).
